Vaddio™ Thin Profile Wall Mount for Cisco Precision HD/60 and Polycom EagleEye IV Cameras
Thin Profile Wall Mount for Precision HD/60 and EagleEye IV Cameras - Model Number 535-2000-251

Figure 1: General Installation Diagram of Mount

The wall mount can be fastened to a display/monitor arm using the 75x75 VESA pattern.

Heavy gauge steel construction for strength and rigidity with durable black powder coat finish. (paintable to match any décor)

Rounded corners for safety and ease of handling.

The wall mount can be mounted directly to the wall with wall anchors or can be mounted directly to a 2-gang electrical wall box.

90° Opposed slotted mounting holes for easy codec/camera leveling.

Wall Mount comes with the proper screw(s) to attach the camera to the mount. Note: The integrator is responsible for attaching the camera/codec to the mount securely.

MOUNTING THE CODEC/CAMERA:
The Thin Profile Wall Mounts for the Cisco Precision HD/60 and Polycom EagleEye IV can be mounted to an electrical wall box or mounted directly to a drywall surface with the supplied wall anchors or other spiral type wall anchors of the Integrator’s choice. This mount also features a 75x75 VESA pattern which can be directly fastened to a compatible display/monitor mounting arm. Note: When locating the camera, consider viewing angles, lighting conditions, line of site obstructions and check for in-wall obstructions where the camera is to be mounted. Pick a location to optimize the performance of the camera. The integrator is responsible for attaching the camera/codec to the mount securely.

INTENDED USE:
These products were designed, built and tested for use indoors and to support the weight, size and shape of the prescribed products only. Using these mounts for any other devices could damage that device and/or create potentially unsafe operating conditions.
